2. Re: Request 2: Oracle must search the repositories of its Competitive Intelligence Group and produce responsive documents with respect to the seven products.
3. Re: Request 3: Oracle must query its customer relationship management databases for information sought in the Request for each of the seven products since 2011 and produce that information.
4. Re: Request 4: For each of the seven products for each year since 2011, Oracle must produce annual revenue information for each of its top 25 customers by annual revenue per product

- 6 and produce responsive documents.
- 7 7. Teradata is not required to reimburse Oracle for its costs incurred in connection with this
- 8 production.
- 9 8. The parties and Oracle shall meet and confer and agree upon a procedure by which Oracle
